

The background of the image is a solid black field. Overlaid on this are numerous thin, bright red lines that appear to be light trails or fiber-optic paths. These lines radiate from a central point, creating a starburst or explosion-like effect. Some lines are straight, while others are curved, and they vary in brightness, with some appearing as sharp, intense red and others as softer, more diffused glows. The overall impression is one of dynamic energy and complexity.
